#### MATERIAL SAFETY DATA SHEET

# U.S. DEPARTMENT OF LABOR, OCCUPATIONAL SAFETY AND HEALTH ADMINISTRATION, HAZARD COMMUNICATION STANDARD, 29 CFR 1910.1200

The Steco Corporation	Emergency Response:	(800) 255-3924
2330 Cantrell Road P.O. Box 2238	Information: Fax #:	(800)-643-8026 (501) 374-4278
Little Rock, AR 72203	Date Reviewed:	March 12, 2009

TRADE NAME:	TAP MAGIC EP-XTRA <sup>®</sup> Formula
DOT SHIPPING NAME:	Not a Regulated Material
CHEMICAL NAME & SYNONYMS:	Petroleum Hydrocarbons and Additives
HMIS/NFPA CODE:	Health 1; Fire 1; Reactivity 1
MANUFACTURING CODE NO .:	8358
COMMODITY CODE NO .:	332-9150

# I. HAZARDOUS INGREDIENTS

<u>Component</u> Chlorinated Paraffins	<u>CAS #</u> 61788-76-9	OSHA PEL ppm *	ACGIH TLV mg/m <sup>3</sup> <u>ppm</u> N/A	Other Limits <u>Recommended</u> 	<u>Max.%</u> <20
		II. INGREDIEN	rs		
Naphthenic Oils	64742-53-6	*	N/A		<80
Sulfurized Paraffins	64742-54-7	*	N/A		<5
Petroleum Sulfonic Acid Salt	68608-26-4	*	10		<5
Petroleum Olefins	64743-02-8	*	10	TWA 1 mg/m <sup>3</sup>	<5

\* These products do not have a unique regulatory limit, however, the OSHA Pel for mineral oil is 5 mg/m<sup>3</sup>

#### **III. PHYSICAL DATA**

BOILING RANGE, (760 mm, Mercury)	:	N/A
SPECIFIC GRAVITY (Water =1), lbs/gal.	:	0.94 (7.8 lbs/gal)
VAPOR PRESSURE (mm of Mercury) @ 68° F	:	<5
VAPOR DENSITY (Air = 1)	:	>1
SOLUBILITY IN WATER, % by weight	:	<1
EVAPORATION RATE (Butyl Acetate = 1)	:	<1
% VOLATILE BY VOLUME	:	<1
APPEARANCE	:	Yellow Liquid
ODOR	:	Mild Sulfur Odor
рН	:	N/A (Non-Aqueous)
D/ EU		

## **IV. FIRE & EXPLOSION DATA**

FLASH POINT, TOC, TCC, PMCC AUTOIGNITION TEMPERATURE EXTINGUISHING MEDIA	:	>300 <sup>0</sup> F N/A CO <sub>2</sub> , Dry Chemical Foam, Water Fog
	•	2, ,
SPECIAL FIRE FIGHTING PROCEDURES	:	Containers will self-pressurize on heating and should be cooled as possible during any fire fighting event to prevent explosive rupturing of containers.
UNUSUAL FIRE AND EXPLOSION HAZARD	:	This product may release toxic fumes when burned; including but not limited to : hydrogen chloride, hydrogen sulfide, carbon monoxide, and short chain hydrocarbons. Under fire conditions, sufficient evolution of such agents will occur to necessitate the use of self-contained breathing apparatus.

## V. HEALTH HAZARD INFORMATION

PRIMARY ROUTES OF ENTRY	:	Exposure may occur via inhalation, skin contact or ingestion.
EFFECTS OF ACUTE OVEREXPOSURE		<ul> <li>INHALATION: (Unlikely due to low vapor pressure). Mist may cause headache, nasal, respiratory and eye irritation.</li> <li>SKIN CONTACT: Prolonged or repeated exposure may cause irritation.</li> <li>INGESTION: Headache, drowsiness, nausea, fatigue.</li> <li>EYE: May cause pain and irritation.</li> </ul>

EFFECTS OF CHRONIC OVEREXPOSURE : CARCINOGENICITY : EMERGENGY AND FIRST AID PROCEDURES:

Same as for acute overexposure. Not a carcinogen or suspect carcinogen.

EYE: Flush eyes gently with water for at least 15 minutes, forcibly holding eyelids open to ensure complete irrigation of all eye and lid tissue. See physician.
SKIN: Wash with soap and water. If rash or irritation persists, see physician.
INHALATION: Remove to fresh air. See physician if irritation persists. In case of exposure to fumes from fire, remove person to fresh air. If unconscious, have professional administer oxygen. If breathing stops, administer mouth to mouth resuscitation.
INGESTION: Do not induce vomiting. Call physician. If individual is conscious, give large quantities of water (milk if available). If vomiting occurs spontaneously, keep airway clear and give more water.

#### VI. REACTIVITY DATA

STABILITY: Stable at ambient temperatures and pressure. Elevated temperature and exposure to strong alkalis, oxidizers, and/or acids will promote decomposition. Such decomposition results in the release of hydrogen chloride, hydrogen sulfide, and sulfur from the product. At normal room temperatures, decomposition is virtually nil. Exposure to strong direct sunlight may cause decomposition and discoloration of some components present in this product.
 INCOMPATIBILITY: Contact with alkali materials, oxidizers, or acids should be avoided.

HAZARDOUS DECOMPOSITION PRODUCTS: This product may release toxic fumes when burned; including but not limited to: hydrogen chloride, hydrogen sulfide, carbon monoxide, and short chain hydrocarbons.

CONDITIONS CONTRIBUTING TO HAZARDOUS POLYMERIZATION: None

#### VII. DISPOSAL, SPILL OR LEAK PROCEDURES

AQUATIC TO	-	:	Not Determined.
PROCEDURE		:	Small Spills: Soak up with shop towels or absorbent material such as oil-dry or vermiculite. Large Spills: Any leaks should be stopped. Spill should be contained, then cleaned up using vacuum truck or absorbent material.
WASTER DISI METHOD	POSAL		Dispose of in accordance with all local, state and federal regulations. "If inert absorbents are employed in
METHOD			spill containment or cleanup, these absorbents must be <u>non-biodegradable</u> materials if destined for landfill disposal. Suitable absorbents include natural minerals (clay), activated charcoal, man-made polymers (HD polyethylene)."
NEUTRALIZA <sup>-</sup>	ΓΙΟΝ		
CHEMICALS		:	N/A
			VIII. SPECIAL PROTECTION INFORMATION
EYE PROTEC	TION	:	Standard eye protection should be worn when using this product.
SKIN PROTEC	Y PROT	: ECTION:	No special equipment is needed. However, good personal hygiene practices should be followed. If application to which this product is being applied generates excessive mist or fumes, then appropriate respiratory protective equipment should be used. No special requirements under ordinary conditions of use and proper ventilation of work area.
VENTILATION		•	No special requirements under ordinary conditions of use and with adequate ventilation.
			IX. SPECIAL PRECAUTIONS: N/A
			X. ADDITIONAL INFORMATION:
CAUTION:	or strong been ful	g odor of va ly determir	
	After us	se of this	product, clean and lubricate metal surfaces to avoid staining and/or corrosion.
			P-Xtra <sup>®</sup> DOES NOT CONTAIN 1,1,1-trichloroethane or any ozone depleting substances. stion can produce carbon monoxide.
	Тар Ма	gic with E	P-Xtra® does not contain any chemical compound listed on the SARA list of "Extremely
	Hazardo	ous Chemio	cals" and is in compliance with all of the requirements of the TSCA at the time of shipment.

Prepared by: Asa L. Morton, Chief Chemist, American Interplex Corp, Little Rock, AR 72204 (501) 224-5060
